

## DAS-ITE Marketplace Services and Rates: **Eliminated Services**

Effective July 1, 2008 (beginning of Fiscal Year 2009), a number of changes are taking place that affect DAS-ITE marketplace services and rates. About eighty (80) service IDs will be eliminated, either because these services are outdated, duplicates, no longer in use, or because these service functions will be absorbed under other listings. Please note that this will not affect the actual service or levels of service received by the end-user; the only noticeable change will be on the billing.

The chart below lists the service IDs that are eliminated beginning July 1, 2008. Be advised that this list does not include services that have been wholly consolidated into another service ID. Those are shown on a separate list, also available on our website: [http://das.iowa.gov/services\\_rates/abc.index](http://das.iowa.gov/services_rates/abc.index).

Service ID	Eliminated Service Name
82	Processing Batch Non Peak
140	Multi Media Support ITS3
